### CINDY HUFFMAN'S ACCUQUILT BLOCKS OF THE MONTH CHALLENGE

### PRESIDENTS MYSTERY CHALLENGE

### VICE PRESIDENTS HALF SQUARE CHALLENGE

DUE JANUARY 2025

## JUNE 2024

### From the President

I have nothing "presidential" to share with you this month so I will discuss the classes I am offering to teach.

I have decided to offer both Krista Moser pattern classes on 2 different dates. There must be at least 4 people participating or the class will be canceled. If you sign up, you will get a handout PRIOR to class which will explain things and tell you how to prepare for the class. The cost of each class is \$10 plus the cost of the pattern. Both patterns suggest using a ruler that costs \$39. I did purchase the ruler and will share it at both classes. It is also possible to use another large ruler that has the 60 degree line marked. (I used this method before purchasing the ruler) You do NOT need to purchase the ruler, but are certainly welcome to. She sells them on her website. (kristamoser.com)

The dates:

June 29     **City Girl Chevron**     9:00 am - 3:00 pm

August 10     **Hollow Star**     9:00 am - 3:00 pm

You need not stay for the full day if you have another commitment or just want to come to get the gist of the pattern and cutting.

## Thinking About Yesterday

by Sheila Painter

From our June 2003 newsletter (21 years ago): This will be the last meeting at Church of the Nazarene; starting next month we'll be at Otterbein Portage Valley, north of Pemberville. Introduction question: Say something your mother was notorious for saying when you were growing up. Minutes mentioned the sewing room tours were held at Rosemary and Shari's houses. Calendar entry: December meeting features Ami Simms. Tip: Cup hooks are great for hanging a wall hanging; just slip it down onto the hooks. ~Sheila

## Did you know?

Dr Ruth Benerito, a USDA chemist, helped perfect wrinkle-free cotton fabric. She and her colleagues developed the cross-linking process resulting in cotton fabric requiring little to no ironing. Their breakthrough in the 1960s also contributed to innovations in stain-resistant and flame-retardant cotton. Dr Benerito, who retired from the USDA and taught in Louisiana until age 81, died at age 97. She held more than 50 patents, many of which were in cotton chemistry.
